

Smithy Heritage Centre

Curators Report

January 2022

During Closed Period

The curators have been getting things ready in advance of the new seasons opening. New equipment that was purchased from last year's budget will be installed (screen & media player etc)

Online Exhibition

The Smithy still has access to the online exhibition, which still allows visitors to look inside the Smithy and view last year's exhibition.

Next Exhibition

Research has started for the new exhibition which will be looking at the industry and trades that St Helens was once famed for. A call to the public for any photographs, objects or memories that could help tell this story.

Loan Boxes

The curators will begin to contact local schools and begin to promote loan boxes once more.
